Analyze A/B Test Results

REVIEW

HISTORY

Meets Specifications

Dear student

Congratulations on passing this project with flying colors! You have done a great job at it. All the very best for the next one! 🥳👏

Code Quality

All code cells can be run without error.

Awesome job! All code cells can be run without error.

Docstrings, comments, and variable names enable readability of the code.

Statistical Analyses

All results from different analyses are correctly interpreted.

Excellent work in interpreting the results! 🥳👏

For all numeric values, you should provide the correct results of the analysis.

Conclusions should include not only statistical reasoning, but also practical reasoning for the situation.
